MESSAGE FROM THE CHAIRMAN AND CHIEF EXECUTIVE OFFICER

Christian BODIN

Chairman and CEO of EPIC Bpifrance

Despite the major and repeated shocks affecting the global economy since 2020, the 2024 accounts of EPIC Bpifrance (hereinafter also referred to as “EPIC” and the “Institution”) reflect the **continued solid financial performance of the Bpifrance Group, in which EPIC Bpifrance and Caisse des Dépôts each hold a 49.18% stake.**

This performance is the result of the business model adopted by Bpifrance, a public limited company (société anonyme, or SA) whose strong activity on behalf of French businesses (€60 billion in financing injected into the French economy in 2024) has developed with solid profitability.

EPIC's balance sheet footings have fallen by €2.5 billion to €38.6 billion in 2024, reflecting the deployment of resources under the PIA4/FR30 plan (with a reduction in allocations received from the State).

EPIC's investment activity was sustained, with the creation of two new investment funds (the Deep Tech fund and the National Seed Fund 3, hereafter “NSF 3”) and additional subscriptions in two existing funds (Multicap Growth 4, for a total subscription of €1.1 billion, and EcoTech 2, for a total subscription of €300 million). EPIC Bpifrance's **2024 income** is mainly composed, as in previous years, of the dividend paid by Bpifrance SA in the amount of €194.0 million and guarantee fees in the amount of €60.0 million.

EPIC Bpifrance's net profit will amount to €206.3 million in 2024, compared with €2,832.6 million in 2023: the return to a normative level of income comes after a 2023 financial year marked by exceptional capital gains (€2,906.6 million) related to the State's takeover of the Innovation and Industry Fund's assets (EDF and TSA shares) as part of the run-off of the fund.

Consolidated net income, group share (unlike the company financial statements under the French GAAP), amounted to €435.2 million in 2024 (compared with €190.6 million in 2023). Despite the decline in Bpifrance's share of net income (€439.9 million in 2024, compared with €534.0 million in 2023), no transactions comparable to the 2023 transfer of the unrestricted revenues of the Innovation and Industry Fund

(IIF) to the State (€309 million) were conducted in 2024, which explains the increase in consolidated net income.

In 2024 and beyond, the accounts of EPIC Bpifrance will be more closely aligned with the pre-2018 situation (i.e., before the creation of the IIF), with own funds consisting essentially of dividends received by EPIC from Bpifrance SA, supplemented by fees it will receive in consideration of its role as the guarantor of Bpifrance's bond issues.

EPIC's positive results also reflect its **involvement in virtually all financing processes of the Bpifrance Group, which now plays a central role in corporate financing in France.**

In 2024, EPIC Bpifrance continued to carry out the missions entrusted to it by the public authorities, for the benefit of the Bpifrance Group, as illustrated by the significant figures below:

- The amount of EPIC's **guarantee commitments in favour of Bpifrance SA bond issues** was **€57.7 billion at end-2024** (compared with €50.1 billion at end-2023);
- **EPIC's balance sheet remains massive**, even after the State took over the assets of the Innovation and Industry Fund. The balance sheet total was €16.7 billion at end-2017, rising to €38.6 billion in 2024, thanks in particular to the **endowments under the PIA and France 2030 programmes**. Over the same period, **equity rose from €10.3 billion to €11.3 billion.**
- Consolidated equity amounts to €15.7 billion at end-2023 and €14.9 billion at end-2024. According to the 2023/2024 annual report by the the French Government Shareholding Agency (Agence des Participations de l'État – APE), this level of equity (100% consolidated in the State's financial statements) puts EPIC Bpifrance in 3rd place among the State's holdings in unlisted companies. This level of equity also puts EPIC in a position comparable to the State's largest holdings in listed companies. It must be noted, however, that EPIC is by no means comparable to these large structures in terms of turnover or income generated.

- **EPIC is one of the main operators of programmes financed by the State via the budget of the General Secretariat for Investment (SGPI).** At end-2024, EPIC's balance sheet resources under the PIA and France 2030 programmes amounted to €27.0 billion, with SGPI endowments accounting for over 70% of EPIC's balance sheet. Thanks to these endowments, EPIC can play a major role as a subscriber to numerous funds launched by the Bpifrance Group (the most recent being Deep Tech and NSF 3). It should be noted that in addition to its stake in the capital of Bpifrance SA (€10.43 billion), by end-2024 EPIC's holdings will include almost €5 billion from its subscriptions to funds launched by the Bpifrance Group and managed by Bpifrance Investissement. For example, EPIC is the only subscriber to the Multicap Growth 3 and 4 funds, with a total investment of €1.65 billion; to the Industrial Projects funds, with a total investment of €1.14 billion; and to NSF 2 and NSF 3, with a total investment of €739 million. In 2024, the amount of these subscriptions increased by around one billion euros.
- It should also be noted that with cash of €7.6 billion, EPIC will be able to ensure the continuity of the activities financed by the PIA and France 2030 programmes in 2025, despite a difficult budgetary situation.
- EPIC's remit has been extended to include **third-party management**, starting with supporting the **Technology Transfer Acceleration Companies (SATT)** (€437 million in

capital and shareholder debt), followed by the ramp-up of **French Tech Sovereignty**, for which EPIC received an endowment of €850 million (to be topped up with a further €200 million in the future) and has already invested in 16 companies.

The governance of EPIC Bpifrance has adapted to the expanded role with which it has been entrusted: the **Board of Directors met 6 times in 2024** to manage the funds entrusted to it, to **finance the Bpifrance Group's initiatives in support of businesses** and to **authorise the signing of numerous agreements with the State** (in particular as part of the roll-out of France 2030), **the Regions, and professional organisations**.

The very strong financial results achieved by Bpifrance in recent years demonstrate the resilience of the group's business model and financing mechanisms, in which EPIC Bpifrance plays a key role, against a backdrop of multiple crises affecting businesses (energy costs, war in Ukraine, rising interest rates).

In a context that will likely remain difficult, EPIC Bpifrance will continue to play its **role in supporting the Bpifrance Group** in providing for the **development of French businesses**, helping them **decarbonise, promoting innovation** and **encouraging the reindustrialisation of France's regions**.

1.1. GENERAL INFORMATION ABOUT EPIC BPIFRANCE

EPIC Bpifrance is a public industrial and commercial institution under French law, registered in the Créteil Trade and Companies Register under number 483 790 069 RCS Créteil. It has an APE code (8413Z) and a LEI number (969500ISDAV00KBJ0122).

EPIC Bpifrance was first registered in the Trade and Companies Register on 24 August 2005 under the name EPIC OSEO.

EPIC Bpifrance's head office is located in France, at 27-31, avenue du Général Leclerc, 94710 Maisons-Alfort Cedex (telephone: 01.41.79.80.00).

1.2. HISTORY AND DEVELOPMENT OF EPIC BPIFRANCE

The public industrial and commercial institution Bpifrance (formerly EPIC OSEO) was created in 2005 from the merger of ANVAR (Agence nationale de valorisation de la recherche), BDPME (Banque du Développement des PME) and its subsidiary SOFARIS (Société française de garantie des financements des PME). Through these three structures, which became subsidiaries of EPIC OSEO and were renamed OSEO innovation, OSEO financement and OSEO garantie, EPIC OSEO was given the mission of financing and supporting SMEs through three business lines: supporting innovation, financing investments and the operating cycle in partnership with banks, and the guaranteeing of bank financing and equity investments.

In order to improve OSEO's responsiveness and efficiency, and therefore the quality of its services, in particular by clarifying and simplifying its organisation, the project to merge OSEO innovation, OSEO financement and OSEO garantie was launched in 2008. It was made possible by the Banking and Financial Regulation Act of 22 October 2010 and took the form of a merger of OSEO garantie, OSEO innovation and OSEO Bretagne into OSEO financement, which became the public limited company OSEO (now Bpifrance).

On 6 June 2012, the Minister for the Economy announced the creation of the Banque Publique d'Investissement. A public group promoting business financing and development, acting in support of public policies conducted by the State and the Regions, the Banque Publique d'Investissement brings together the activities of OSEO, CDC Entreprises and the Strategic Investment Fund. Its creation was made official by law n°2012-1559 of 31 December 2012, amending order n°2005-722 of 29 June 2005 relating to the creation of the public institution OSEO (now EPIC Bpifrance), and of the

public limited company OSEO. The latter (now called EPIC Bpifrance), like the entities grouping the equity activity of CDC Entreprises and the Fonds Stratégique d'Investissement, now called Bpifrance Investissement and Bpifrance Participations respectively, became subsidiaries of a company called BPI-Groupe and then Bpifrance SA, held in equal measure by EPIC Bpifrance and Caisse des Dépôts.

Bpifrance Group's remit has expanded since its creation:

- since 1 January 2017, Bpifrance has managed public guarantees in the name, on behalf and under the control of the French State through its wholly-owned subsidiary Bpifrance Assurance Export;
- in December 2018, Bpifrance acquired from Caisse des Dépôts the shares comprising the capital of CDC International Capital, a company whose mission is to develop long-term partnerships with foreign sovereign wealth funds, with the aim of carrying out collaborative investments in France and abroad;
- since 1 January 2019, Bpifrance has been the main public entity providing support for start-ups. Prior to that, support was provided by Caisse des Dépôts and Agence France Entrepreneur (AFE).

On 18 December 2020, by decision of the extraordinary general meetings of Bpifrance SA and Bpifrance Financement, Bpifrance SA was absorbed by its subsidiary Bpifrance Financement. Since that date, the corporate name of the holding company of the Bpifrance Group is Bpifrance.

As at 31 December 2024, EPIC Bpifrance and Caisse des Dépôts each held a 49.18% stake in the capital of Bpifrance, while the French State held one Bpifrance share, lent by EPIC Bpifrance on 18 December 2020.

1.3. MISSIONS OF EPIC BPIFRANCE

The public institution Bpifrance's purpose is:

- to promote and support innovation, particularly technological innovation, and to contribute to technology transfer. In this respect, EPIC Bpifrance is one of the major operators of the Investing in the Future Programme, and of the France 2030 Programme;

- to promote the development and financing of small and medium-sized enterprises;
- to encourage, support and secure French exports financed over the medium and long term as well as French investments abroad.

It also provides guarantees for Bpifrance's bond issues.

The State, acting unilaterally or by agreement, local authorities and their public limited companies, acting by agreement, may entrust the public limited company Bpifrance with missions of general interest compatible with its purpose.

The public institution Bpifrance is authorised to carry out its missions in New Caledonia and its provinces, in French Polynesia and in the Wallis and Futuna Islands, at the request of these authorities.

The choice, organisation and implementation of these missions as well as that of the corresponding instruments are provided for by agreements between the parties. These agreements may provide for the creation of a local steering committee responsible for formulating an opinion as to how Bpifrance SA and its subsidiaries carry out their missions at regional level and as to the consistency of their strategic orientations with the regional economic development strategy. This local steering committee conveys its opinions to the regional management bodies of Bpifrance SA.

The public institution Bpifrance acts directly or, within the framework of agreements entered into for this purpose, through the intermediary of companies in which it holds a stake or any company in which the State holds, directly or indirectly, at least 50% of the capital.

It is within this framework that EPIC Bpifrance entrusts Bpifrance SA and its subsidiaries with implementing the programmes for which it has received funding from the French State.

The Bpifrance Group is a public group promoting business financing and development, acting in support of public policies led by the State and the regions.

With a view to supporting sustainable growth, employment and the competitiveness of the economy, the Banque Publique d'Investissement:

- promotes innovation, start-up, development, internationalisation, change and transfer of businesses, by contributing to their financing through loans and equity;
- focuses on women's entrepreneurship, very small businesses, small and medium-sized businesses and intermediate-sized businesses, especially those in the industrial sector;
- invests wisely to finance long-term projects;
- assists the national industrial policy, in particular so as to support sector development strategies;
- participates in the development of sectors of the future, digital conversion and of a socially responsible economy;
- contributes to the development of technological and managerial innovations;
- supports the implementation of the ecological and energy transition;
- promotes the involvement of the banking system as a whole in the projects it supports;
- works in cooperation, where appropriate, with the European Investment Bank;
- develops a range of services and support for businesses throughout their development;
- can stabilise the shareholding of large companies that are a source of growth and competitiveness for the French economy.

1.4. GOVERNANCE

The Board of Directors of EPIC Bpifrance held 6 meetings in 2024 (including 2 as part of a written consultation).

• As part of the written consultation completed on 28 February 2024, the Board:

- approved amendment 1 to the agreement on the implementation of the France 2030 space programme, to be concluded between the Centre National d'Etudes Spatiales (CNES), the French State, Bpifrance, and EPIC;
- approved amendment 1 to the partnership agreement between Business France, Bpifrance Participations, and EPIC on the implementation of the "Regional Volunteer Programme for Export" scheme; and
- approved an amendment to the agreement on the investing in the future programme ("Bottom-Up Innovation Grant" initiative, "France 2030 Regional" section), to be concluded between the French State, Caisse des Dépôts, Bpifrance, and EPIC.

• At its meeting of 21 March 2024, the Board:

- approved Bpifrance's actual 2023 management fees under the "Deeptech" and "Grand Challenges" agreements;
- approved an agreement on the deployment of the 7th class of the Pays de la Loire accelerator, to be concluded between the Pays de la Loire region, Bpifrance Participations, and EPIC;
- approved the individual and consolidated financial statements for the year ended 31 December 2023; and
- approved the annual report for the year ended 31 December 2023.

- **At its meeting of 20 June 2024, the Board:**

- approved amendment 1 to the agreement on the France Green Nation grant, to be concluded between Ademe, Bpifrance, and EPIC;
- approved amendment 7 to the agreement on the deployment of the Auvergne-Rhône-Alpes SME accelerator, to be concluded between the Auvergne-Rhône-Alpes region, Bpifrance Participations, and EPIC; and
- Approved an agreement on the deployment of the Export Academy to be concluded between the State, Bpifrance Participations, and EPIC.

- **As part of the written consultation concluded on 4 July 2024,** the Board approved a new version of the framework agreement on support for the energy and ecological transition of businesses and for reindustrialisation for the 2024-2027 period, to be concluded between the State, Bpifrance Participations, and EPIC.

- **At its meeting of 8 October 2024, the Board:**

- Approved Bpifrance's 2024 management fee budgets for the IIF's Deeptech Development Grant, French Tech Grant, and Innovation Grant programmes;
- approved amendment 1 to the agreement on the investing in the future programme (the "National Innovation Fund" and "Regional Innovation Partnerships" initiatives), to be concluded between the State, Bpifrance, and EPIC; and

- approved amendment 1 to the agreement on the investing in the future programme "Development of the Digital Economy", "Support for Innovative Digital Uses, Services, and Content" initiatives, "Grants and Repayable Advances" and "Digital Uses and Technologies" sections), to be concluded between the French State, Bpifrance, and EPIC.

- **At its meeting of 20 December 2024, the Board:**

- approved EPIC Bpifrance's 2025 budget;
- approved Bpifrance's 2025 financing plan, guaranteed by EPIC Bpifrance;
- set the remuneration for the guarantee to be granted by EPIC Bpifrance in respect of issues of medium- and long-term debt securities by Bpifrance to be conducted in 2025;
- approved Bpifrance's 2025 management fee budgets for the Deeptech Development Grant, French Tech Grant, Innovation Grant, and Grand Challenges programmes as part of the IIF;
- approved an agreement on the deployment of the 5th and 6th classes of the Centre-Val de Loire SME accelerator, to be concluded between the Centre-Val de Loire region, Bpifrance Participations, and EPIC; and
- approved amendment 2 to the partnership agreement between Business France, Bpifrance Participations, and EPIC for the implementation of the Regional Volunteer Programme for Export scheme.

1.4.2. General Management

Christian BODIN

Chief Executive Officer

1.5. INFORMATION ON THE CEO AND THE BOARD MEMBERS

• Acting Chairman of the Board of Directors and Chief Executive Officer

Christian BODIN

Biography

Since May 2019, Christian Bodin has been Chairman and Chief Executive Officer of the public industrial and commercial institution Bpifrance, a 49.18% shareholder of the public limited company Bpifrance (on an equal basis with Caisse des Dépôts).

A former student of the ENA (Voltaire class), graduate of Sciences-Po Paris, holder of the CAPA and a degree in private law, he worked at the Ministry of Transport, then at Caisse des Dépôts and from 1985 onwards at the Ministry of the Economy and Finance.

Within this ministry, he worked at the Budget Directorate (1985-1990: head of the Employment and then Culture offices), at the Directorate of External Economic Relations (Regional Economic Mission in Abidjan 1995-1999, Regional Director of Foreign Trade Midi-Pyrénées 1999-2001) and at the General Directorate of the Treasury (Economic Mission in Saudi Arabia 2001-2005, Inspector of External Services 2005-2006). Between 1990 and 1995 he was assigned to the Ministry of Overseas Departments and Territories as Deputy Director of Economic Affairs.

Appointed Controller General of the Economy and Finance in 2006 within the Financial Activities Control Mission (which reports to the General Directorate of the Treasury), he is a Government Commissioner, notably for the Banque Postale, the Caisse de Garantie du Logement locatif social and film financing companies. In parallel to these functions, he contributed, as an external reporter, to the work of the 1st Chamber of the Court of Auditors from 2008 to 2012.

In 2013, Christian Bodin was appointed to the Audit Mission of the French Atomic Energy Commission (CEA), and his responsibilities were extended to economic and financial auditing of the AREVA group in 2014.

In 2015, he was appointed Head of the General Economic and Financial Control Mission, retaining his responsibilities until June 2018.

Christian Bodin is also a non-voting member of the French National Research Agency. He is a Knight of the National Order of Merit.

Current offices:

- Non-voting member of the Board of Directors of the French National Research Agency (ANR)
- Acting Chairman of ASN Holding (ASNH)

Offices expired in the last 5 years:

None

• Board members representing the State

Emmanuelle BENHAMOU

Biography

Emmanuelle BENHAMOU has been Deputy at the audit and accounting unit at the French Government Shareholding Agency since 2021. A graduate of HEC Paris with a degree in accounting, she previously held positions as an auditor and financial consultant at Ernst & Young from 2013 to 2017, as financial controller at Banijay from 2017 to 2019, then as a management accountant at Eramet from 2019 to 2021).

Current offices:

- Board member representing the State at the Great Maritime Port of Nantes Saint-Nazaire
- Board member representing the State at La Banque Postale

Offices expired in the last 5 years:

None

Jean BENSÂÏD

Biography

Since 2019, Jean BENSÂÏD has served as Director of Fin Infra, an advisory service for public decision-makers (ministries, local authorities, and public establishments), within the French Treasury. Fin Infra carries out around 80 assignments a year on the contractual and financial structuring of public investment projects.

Previously, he was an economist at the French Treasury, then financial attaché in Washington and Macroeconomics and Taxation Adviser to Prime Minister Lionel Jospin. He then joined the Caisse des Dépôts Group as Director of Investments. There, he created CDC Infrastructure, Caisse des Dépôts's infrastructure fund, which he managed for 6 years. He then joined the Executive Committee of Icade, a real estate firm, as Director of Asset Management.

He is a graduate of ENSAE ParisTech and Ecole Normale Supérieure Paris-Saclay.

Current offices:

- Board member of Société des Grands Projets
- Board member of the French civil service supplementary pension scheme
- Board member of the Paris La Défense public authority
- Board member of Société Publique des Ecoles Marseillaises
- Chairman of JEB Advisory

Offices expired in the last 5 years:

None

Géraldine LEVEAU

Biography

Géraldine LEVEAU holds a master's degree in public law and a postgraduate diploma in political administration from the University of Panthéon-Sorbonne (Paris-I). She has been Deputy Secretary General for Investment, in charge of France 2030, since 25 May 2021.

Prior to that, she worked for the Île-de-France region as a project manager between 2005 and 2011, and for four years at the Paris Region Economic Development and Innovation Agency, where she was in charge of the Regional Innovation Network.

She joined the Directorate General for Enterprise in 2016, first as deputy head of the innovation, R&D and industrial property office and then as project director for innovation ecosystems and startups. She was advisor in charge of innovation, start-ups and digital in Frédérique Vidal's office from August 2020 until she took up her position at the SGPI.

Current offices:

- Representative of the French State on the Board of directors of Euroapi

Offices expired in the last 5 years:

None

David HELM

Biography

David HELM has served as Head of the Industrial Property and Innovation Financing Unit in the Subdirectorate for Innovation at the Directorate General for Enterprise since 1 May 2023. He holds a master's degree in medieval history from the University of Paris I-Panthéon-Sorbonne and a post-graduate diploma in medieval history from the University of Versailles-Saint Quentin. He has a prestigious agrégé teaching certificate in history and studied at the Ecole Normale Supérieure Lettres et sciences Humaines and the Ecole nationale d'administration.

He worked as a secondary school teacher from 2005 to 2012, deputy head of the cultural goods and services office at the Directorate-General for Competition, Consumer Affairs, and Fraud Control from 2015 to 2017, head of the public international law office at the Ministry of the Armed Forces from 2017 to 2021, and project director responsible for foreign investment and threat assessment at the Directorate General for Enterprise's Economic Intelligence and Security Service from 2021 to 2023.

Current offices:

- Expert member of the Bpifrance Innovation Committee

Offices expired in the last 5 years:

None

Simon PINEAU

Biography

Simon Pineau has been Head of the Energy, Investments, Industry, and Innovation Office at the Budget Directorate of the Ministry of Public Accounts since May 2024. A graduate of ESSEC and Sciences Po, he has previously held a number of positions in the Budget Department, initially responsible for summarising State financial forecasts (2019-2021) and then overseeing public establishments and monitoring public transport infrastructure projects (2021-2024).

Current offices:

- Board member of the Institut Polytechnique de Paris (IP Paris)
- Board member of Institut Mines-Télécom (IMT)
- Board member of the Association of National Schools of Economics and Statistics (GENES)

Offices expired in the last 5 years:

- Member of the Commitments and Risks Committee at Société du Canal Seine-Nord Europe (SCSNE) (2021-2024).

Estelle DHONT PELTRAULT

Biography

A graduate of the Ecole Nationale Supérieure de Cachan and a doctor of economics, Estelle Dhont-Peltrault has served as Head of the Innovation, Technology Transfer, and Regional Action Department in the Directorate General for Research and Innovation since 19 December 2023.

Prior to this, she was an associate professor of economics and management (2002-2004), then head of economic studies at the Ministry of Higher Education and Research (2004-2008) and project manager at the Centre for Statistical Analysis at the office of the Prime Minister (2008-2012).

She joined the French Treasury in 2012, where she served first as Deputy Head of the Industrial Policy, Research, and Innovation Office, then as Deputy Head of the Labour Market and Employment Policies Office, before being appointed Head of the Service Sector and Competition Office, where she remained until 2018.

She then joined the Directorate General for Research and Innovation as a research and innovation economics officer, before becoming deputy head of the Innovation, Technology Transfer and Regional Action Department in 2020.

Current offices:

- Government representative to the National Association for Technological Research (ANRT)

Offices expired in the last 5 years:

None

1.6. STATUTORY AUDITORS AS AT 31 DECEMBER 2024

Forvis Mazars

Represented by Matthew BROWN

61 rue Henri Regnault

92400 Courbevoie

KPMG SA

Represented by Ulrich SARFATI

2, avenue Gambetta

92066 Paris La Défense Cedex

Member of the Regional Association of Statutory Auditors of Versailles.

Forvis Mazars (formerly Mazars) was reappointed by the Board of Directors on 22 March 2023, for a period of 6 financial years, until the financial year ending 31 December 2028.

Member of the Regional Association of Statutory Auditors of Versailles.

KPMG SA was reappointed by the Board of Directors on 22 March 2023, for a period of six financial years, until the financial year ending 31 December 2028.

1.7. ACTIVITY REPORT FOR 2024 FINANCIAL YEAR

1.7.1. Significant events for EPIC Bpifrance and the Bpifrance Group

I. Significant events concerning EPIC Bpifrance

Financing of innovation projects by France 2030

- In 2024, EPIC Bpifrance remains one of the leading operators of France 2030, with the continued deployment of a number of large-scale initiatives.
- The France 2030 investment plan presented on 12 October 2021 by the President of the French Republic reflects a dual ambition: **(i)** sustainably transform key sectors of the French economy through technological innovation and **(ii)** position France as a leader in the world of tomorrow. With a budget of €54 billion, including €20 billion from the Investing in the Future Programme (Programme d'Investissements d'Avenir, or PIA) 4, whose commitments it continues, the France 2030 investment plan is directed by the General Secretariat for Investment and implemented by the Ecological Transition Agency, the National Research Agency, Caisse des Dépôts, EPIC Bpifrance (as operator), and Bpifrance (as manager).

Financing of innovation projects by the Innovation and Industry Fund (FII)

- Since 2023, the Innovation and Industry Fund has been placed in run off. The French State took over the assets of the IIF (EDF shares, TSA shares and cash endowments) in 2023. However, these withdrawals did not prevent the continued deployment of resources to targeted innovation programmes, with disbursements to operators of innovation schemes financed by the IIF amounting to €20 million in 2024 (compared with €21 million in 2023).

- As part of the run-off of the IIF, EPIC Bpifrance paid the State the available unscheduled income, i.e., an amount of €308.6 million.

Dividends paid by Bpifrance SA

- In 2024, Bpifrance SA paid EPIC Bpifrance €194.0 million in dividends: €133.8 million in respect of the final dividend for the 2023 financial year and €60.2 million in respect of the interim dividend for the 2024 financial year.
- EPIC Bpifrance paid a dividend of €194.0 million to its shareholder (the French State) in July 2024.

II. Significant events concerning Bpifrance SA

Significant events, as well as the activity, financial statements as at 31 December 2024, and 2025 outlook for the Bpifrance public limited company can be consulted in the annual reports of the entities concerned, published on the Bpifrance website (www.bpifrance.fr, "Investors" section).

III. Post-balance sheet events for 2024 financial year

None.

1.7.2. Business and key figures

EPIC Bpifrance has four main missions:

- together with Caisse des Dépôts, it holds the State's investment in the capital of Bpifrance SA and, to this end, in 2024 ensured that the State's assets were used appropriately;
- it provides guarantees for bond issues by Bpifrance SA. Within this framework, EPIC Bpifrance and Bpifrance SA bond issues benefit from ratings aligned with those of the French State;
- it implements agreements concluded with the State, in particular in the framework of the PIA/France 2030;
- it manages the schemes financed by the Innovation and Industry Fund.

The resources of EPIC Bpifrance enabling it to carry out its business are made up of:

- the amount of fees paid to it by companies in which it holds a stake or any company in which the State holds, directly or indirectly, at least 50% of the capital, in payment for services it provides on their behalf;
- dividends and other income from its holdings in companies in which it has an investment;
- fees for tasks carried out directly in its own name or on behalf of third parties;
- financial grants from the State and local authorities or their public limited companies;
- all other financial grants.

EPIC Bpifrance may also make a public offering of securities and issue any type of debt security.

EPIC Bpifrance's guarantee commitments to Bpifrance SA amounted to €58.9 billion as at 31 December 2024, which breaks down as follows:

- €45.9 billion in bonds issued under EMTN programmes (of which €3.5 billion in interest);
- €5.0 million in bilateral loans (of which €0.77 million is interest);
- €4 billion under the NEU MTN programme;
- €9 billion under the NEU CP/ EUR CP programme.

The medium- and long-term bond resources utilised in 2024 by Bpifrance SA represent a total of €10.5 billion of securities over the year.

An addendum was made to the prospectus governing this programme on 12 June 2024 to indicate that the ceiling of the EMTN programme has been increased from €45 billion to €50 billion.

The EMTN programme thus represented 96% of the medium and long-term refinancing carried out in 2024 by Bpifrance SA.

In total, the breakdown of outstanding refinancing by lender was as follows as at 31 December 2024:

- investors in the EMTN and BMTN programmes accounted for 72.4% of outstanding amounts;
- Caisse des Dépôts, 0.01%; and
- EPIC Bpifrance, 0.3 %.

Outstanding short-term interbank refinancing (certificates of deposit and securities delivered under repurchase agreements) amounted to €16.1 billion at 31 December 2024, compared with €13.4 billion at 31 December 2023, i.e., an increase of 20%.

This increase is mainly due to securities given under repurchase agreements which amounted to €9.56 billion as at 31 December 2024, compared to €7.08 billion as at 31 December 2023, an increase of 35%.

As at 31 December 2024, the breakdown according to origin of the medium and long-term financing resources for customer support, i.e. €43 billion of outstanding loans, was as follows:

- €42.9 billion, or 99.6%, are resources raised from the financial market under the EMTN programme;
- €0.05 billion, or 0.01%, are contractual loans from financial institutions with resources from LDD deposits;
- €0.2 billion, or 0.4%, of public resources coming primarily from the Investing in the Future Programme (Programme d'Investissements d'Avenir, or PIA) via EPIC Bpifrance;

Repayment of medium-term refinancing from the ECB (TLTRO) was completed in full in 2024.

The resources, backed by the guarantee activity conducted by Bpifrance SA and Bpifrance Régions, amounting to €7.08 billion as at 31 December 2024, were up slightly compared to 2023.

Outstanding certificates of deposit amounted to €6.6 billion as at 31 December 2024, compared to €6.03 billion as at 31 December 2023.

1.7.3. Outlook for 2025

In 2025, EPIC Bpifrance will continue to carry out its general interest mission, namely to promote and support innovation, contribute to technology transfer and foster the development and financing of SMEs.

These initiatives will be continued, in particular, through the agreements concluded by EPIC Bpifrance and Bpifrance SA pursuant to I and III Article 6 of Order No. 2005-722 of 29 June 2005 in relation to the Banque publique d'investissement and through the guaranteeing of Bpifrance SA's 2025 financing plan. This plan authorises the conclusion of medium and long-term debt transactions through bond issues under the MTN EMTN/NEU programmes as well as bilateral loans.

1.7.4. Financial data and results for EPIC Bpifrance

Consolidated financial statements for EPIC Bpifrance

The presentation of the consolidated financial statements follows the rules applicable to industrial and commercial companies, in accordance with Decree No. 2015-1498 of 18 November 2015 with regard to the Articles of Association of the public institution Bpifrance and defining the specific terms and conditions of State control.

The consolidated accounts of EPIC Bpifrance incorporate the consolidated financial statements of Bpifrance SA under the equity-accounting method, as well as the accounts of the parent entity. The balance sheet total amounted to €37.4 billion compared to €41.6 billion in 2023. This decrease is primarily due to the contraction of EPIC's share of the net assets of Bpifrance SA (from €14.9 billion at 31 December 2023 to €14.1 billion at 31 December 2024) and EPIC's receipt of €3.3 billion in allocations under the France 2030 plan, thus reducing the allocations receivable from the State by the same amount.

The consolidated income primarily consists of the integration of the share of the income of Bpifrance SA for €439.9 million (compared to €534.0 million in 2023). The dividends received from Bpifrance SA are eliminated under the equity-accounting method.

EPIC Bpifrance's consolidated results also include the following transactions:

- income of €60.0 million from guarantee fees for securities issues by Bpifrance SA;
- impairment losses of €36.0 million on IIF receivables related to the use of funds by beneficiaries.

The group's net profit, was therefore €435.2 million, compared with €190.6 million in 2023.

Parent entity financial statements

The published parent entity financial statements of EPIC Bpifrance are presented in accordance with French Generally Accepted Accounting Principles.

In July 2024, EPIC Bpifrance received a final dividend for 2023 of €133.8 million from Bpifrance SA, and in December 2024 an interim dividend for 2024 of €60.2 million.

These amounts, recorded in financial income, are in addition to €60 million representing the fees from the guarantee

granted by EPIC Bpifrance to Bpifrance SA in connection with its debt securities issues. EPIC Bpifrance's net income was reduced in particular by impairment losses of €36.0 million on IIF assets and by the financing of Bpifrance SA's programmes:

- €12.2 million in expenses related to the use of allocations for France Green Nation programme;
- €0.7 million in expenses related to the payment of the 1st tranche of funding for the Export Academy.

EPIC Bpifrance's operating expenses (€16.3 million) mainly represent the withdrawal of interest capitalised in the reserve fund (€14.6 million) and credited to the guarantee funds in accordance with Article 3-1 of the agreement for the constitution and operation of the reserve funds. The balance of operating expenses is essentially (i) the invoicing for resources made available by Bpifrance SA and Bpifrance Investissement to EPIC Bpifrance and (ii) the Cotisation sur la valeur ajoutée des entreprises (CVAE, a French tax on the added value of companies).

The net profit of EPIC Bpifrance amounted to €206.3 million.

EPIC Bpifrance's balance sheet totalled €38.6 billion at 31 December 2024 (compared with €41.2 billion at 31 December 2023). This decrease is mainly due to the roll-out of the France 2030 plan.

On the asset side, EPIC Bpifrance's investment in Bpifrance SA amounted to €10.4 billion.

As a reminder, the assets of the Innovation and Industry Fund (TSA shares, EDF shares and cash endowment) were taken over in full by the French State in 2023, resulting in a reduction in assets of around €12.1 billion for this financial year.

EPIC's off-balance sheet commitments (which reflect guarantees granted or commitments made) increased by €8.8 billion to €58.9 billion at 31 December 2024 (compared with €50.1 billion at 31 December 2023). This sharp increase is the result of the growth in the Bpifrance Group's activity in support of businesses.

21 March 2025,

By the Chairman and CEO of EPIC Bpifrance,

Christian BODIN

BPIFRANCE ORGANISATIONAL CHARTS

2.1. CAPITAL STRUCTURE OF THE BPIFRANCE GROUP	20
--	-----------

2.1. CAPITAL STRUCTURE OF THE BPIFRANCE GROUP

Bpifrance Group organisational chart as at 31 December 2024

(1) Bpifrance holds 0.29% of its capital

Note: at 31 December 2024, EPIC Bpifrance held 49.18% of the capital and 49.32% of the total voting rights exercisable at the general meeting of shareholders of Bpifrance SA. This percentage of voting rights (slightly higher than the proportion of capital held) is explained by the fact that, at 31 December 2024, Bpifrance SA held approximately 0.29% of its own capital; these treasury shares are deprived of voting rights pursuant to the fourth paragraph of Article L. 225-210 of the French Commercial Code.

Below is a breakdown of Bpifrance SA's capital, as provided on page 18 of its Universal Registration Document:

Breakdown of Bpifrance capital and voting rights over 3 years⁽¹⁾

	As at 31 December 2024				As at 31 December 2023				As at 31 December 2022			
	Number of shares	% of capital	% of theoretical voting rights ⁽²⁾	% of voting rights exercisable at General Meetings	Number of shares	% of capital	% of theoretical voting rights ⁽²⁾	% of voting rights exercisable at General Meetings	Number of shares	% of capital	% of theoretical voting rights ⁽²⁾	% of voting rights exercisable at General Meetings

Cash flow table

The cash flow table is presented using the indirect method.

The **net cash flow generated by the business** is representative of the group's revenue-generating activities.

Tax cash flows are presented in full along with operating activities.

Investment activities represent cash flows relating to the acquisition and disposal of investments in consolidated and non-consolidated companies, tangible and intangible fixed assets, intangible assets, and investment properties.

Financing activities result from changes in the financial structure of equity and long-term borrowings.

The concept of **net cash** corresponds to cash and cash equivalents (see note 6.4).

Note 1 - Significant events in the financial year and post balance sheet events

1.1. Significant events in the financial year

No material event has taken place during the financial year.

1.2. Post balance sheet events

There were no significant events after the balance sheet date.

Note 2 - Applicable accounting standards

2.1. Accounting standards applicable as at 31 December 2024

The 2024 consolidated financial statements have been prepared in accordance with IFRS as adopted by the European Union and applicable as at 31 December 2024.

The new standards, amendments, and interpretations which are compulsory as of 1 January 2024 had no material impact on the financial statements as at 31 December 2024.

The group does not apply the standards, interpretations and amendments whose application is only optional as at 31 December 2024.

2.2. Accounting standards that the group will apply in the future

The European Union has adopted new standards that will be mandatory from 1 January 2025.

The application of these new provisions is not expected to have a material impact on the group's consolidated financial statements.

Note 3 - Consolidation principles and methods

In accordance with EC Regulation 1606/2002, the Group's consolidated financial statements will be prepared in accordance with the International Accounting Standards IAS/IFRS in force in the European Union as at 31 December 2024.

3.1. Consolidation principles

General principle

The consolidated financial statements of EPIC Bpifrance include all the companies that the group controls or over which it exercises significant influence.

Notion of control

The notion of control is determined irrespective of the nature of the relationship between the group and the investee. Control is defined as when the group is exposed to or entitled to variable returns and has the ability to influence those returns by virtue of the power it holds.

Therefore, the group controls a subsidiary if, and only if, all of the following elements are met:

- The group has the power, where it has effective control, to direct the relevant activities of the subsidiary,
- The group is exposed or entitled to variable returns, where returns may vary depending on the performance of the subsidiary,

- The group has the ability to exercise its power to influence the amount of variable returns it earns.

Joint control is the contractual sharing of control over a partnership which may be either a joint activity or a joint venture. Joint control exists only where decisions about the relevant activities require the unanimous consent of the parties sharing control.

Significant influence is the power to participate in decisions with regard to the financial and operating policies of the affiliate company, but not to exercise control or joint control over those policies. This is presumed to be the case when the group holds, directly or indirectly, 20% or more of the voting rights. It may also result, for example, from representation on the board of directors or equivalent governing body, participation in the policy-making process, significant transactions between the group and the affiliate company, exchange of management personnel or provision of essential technical information.

3.2. Consolidation method

The consolidation method results from the nature of the control exercised by the group over the entities to be consolidated, whatever their activity.

The accounts of companies over which complete control is exercised, including companies with a different accounts structure, are consolidated using the full consolidation method.

Equity holdings that the group controls jointly through a joint venture and holdings subject to significant influence by the group are accounted for using the equity method.

3.3. Investments in companies accounted for using the equity method

The equity method consists of replacing the value of the shares with the group's share of the shareholders' equity and the net profit or loss of the companies concerned. The income statement reflects the group's share of the net profit or loss of the companies accounted for using the equity method.

The entire equity investment (including goodwill) is tested for impairment in accordance with IAS 36 Impairment of Assets, where there is objective evidence of impairment as a result of one or more events that occurred after the initial

recognition of the equity investment and these events have an impact on the forecast cash flows of the equity investment, which can be reliably estimated.

The book value of the equity investment is then compared to its recoverable amount, which is the higher of value-in-use and the fair value less selling costs.

When an impairment loss is recognised, it is allocated to the equity-accounted investment in the balance sheet, allowing the impairment loss to be reversed if there is an improvement in value-in-use or market value

3.4. Consolidation rules

Restatements and eliminations

Restatements necessary to harmonise the valuation methods of the consolidated companies are made when they are significant.

Intra-group dividends, provisions in relation to consolidated securities, capital gains on internal sales and accelerated depreciation are eliminated in an amount equal to the share held of companies accounted for by the equity method.

Goodwill

The identifiable assets, liabilities, contingent liabilities and off-balance sheet items of the acquired entities are recognised at their fair values at the date of acquisition. This initial value may be adjusted within twelve months of the acquisition date.

A positive difference between the acquisition cost of the entity and the acquired share of the net assets thus revalued is recorded on the assets side of the consolidated balance sheet under the heading "Investments in companies accounted for by the equity method" when the company acquired is accounted for by the equity method. When the difference is negative, it is immediately recorded in the income statement.

When the recoverable amount is less than the book value, an irreversible impairment of goodwill is recognised in the income statement. The recoverable amount is generally measured using the discounted cash flow method.

3.5. Presentation of the financial statements and balance sheet date

Presentation of the consolidated financial statements

The presentation of the interim reports used is in accordance with that proposed by Recommendation No. 2013-03 of 7 November 2013 of the French Accounting Standards Authority (ANC) on the format of consolidated financial statements of companies prepared in accordance with international accounting standards.

Balance sheet assets and liabilities are classified as "Current" and "Non-current" as defined by IAS 1 "Presentation of

Financial Statements". An asset or a liability is classified as "Current" if it will be sold or settled within twelve months from the balance sheet date. Conversely, sales and settlements that will take place more than twelve months after the balance sheet date are classified as "Non-current".

Balance sheet date

All companies included in the scope of consolidation close their annual financial statements on 31 December.

Note 4 - Scope of consolidation

The table below identifies the consolidated companies, the proportion of their capital held directly and indirectly, and their consolidation method.

As EPIC Bpifrance exercises joint control with CDC over Bpifrance, EPIC Bpifrance consolidates this joint venture using the equity method, in accordance with IFRS 11 "Partnerships".

Denomination	Consolidation method	31/12/2024	31/12/2024	31/12/2023
		% interest	% of voting rights	% of voting rights
EPIC Bpifrance	Full	100%	100%	100%
Groupe Bpifrance	Equity Consolidated	49.32%	49.32%	49.32%

Note 5 - Accounting principles and assessment methods

5.1. Determination of fair value

IFRS 13 establishes the framework for determining fair value and provides guidance on how to measure the fair value of assets and liabilities, both financial and non-financial. Fair value is the price that would be received for the disposal of an asset or paid for the transfer of a liability in a normal transaction between market participants at the valuation date. Fair value is therefore based on the exit price.

On initial recognition, the value of a financial instrument is normally the trading price (i.e. the value of the consideration paid or received).

In subsequent valuations, the fair value of assets and liabilities should be estimated and determined using observable market data as a priority, while ensuring that the set of parameters that make up the fair value is consistent with the price that "market participants" would use in a transaction.

5.1.1 • Fair value hierarchy

The three levels of fair value

The standard defines three levels of fair value for financial and non-financial instruments:

Level 1: valuation using quoted market prices in a liquid market. These are instruments whose fair value is determined from quoted prices in active markets.

Level 2: valuation using observable market data. This fair value level includes instruments quoted in an illiquid market and instruments valued using a valuation technique with observable parameters either directly (price) or indirectly (price derivative).

Level 3: valuation using unobservable market data. This level includes instruments valued using unrecognised valuation models and/or based on unobservable market parameters where these are likely to significantly affect the valuation.

Transfers between fair value levels

Transfers between fair value levels can occur when instruments meet the criteria for classification of the new level, which are dependent on market and product conditions. Changes in observability and the passage of time and events affecting the life of the instrument are the main factors that trigger transfers. Transfers are deemed to have occurred at the end of the period.

5.1.2 • Assessment techniques

General framework

The best estimate of value is the market price of the instrument when it is traded in a liquid market (quoted and published prices). The group uses the bid price for the fair value of a long position (asset) and the ask price for a short position (debt).

In the absence of market or reliable data, fair value is determined by an appropriate method in accordance with the valuation methodologies used in the financial markets: reference to the market value of a comparable instrument, valuation models and, more generally, discounting of estimated future cash flows.

The fair value amounts of financial assets and liabilities represent estimates made at the reporting date. These estimates may change at a later date due to changes in market conditions or other factors. The calculations made are based on a number of assumptions. In practice, and under the going concern convention, all of these financial instruments are not sold immediately at their estimated value.

5.2. Accounting for financial assets and liabilities

All financial assets and liabilities within the scope of IFRS 9, except those whose fair value is determined from their profits or losses, are initially recognised at fair value plus/minus transaction costs attributable to their acquisition. Transaction costs for financial assets and liabilities whose fair value is determined from their profits or losses are recorded directly in the income statement on the date they are first recognised.

The group recognises securities, loans and borrowings in the balance sheet on the settlement date.

"Other financial assets" include receivables and loans. As debt instruments held in a business model where the

objective is to collect the contractual cash flows and where the cash flows only give rise to payments of principal and interest on the remaining principal due at specified dates (SPPI Solely Payment of Principal and Interests criterion), they are carried at amortised cost and are subject to impairment determined using a simplified low credit risk approach. Interest is calculated using the effective interest rate method and accrued interest is recorded in the related receivables account and offset against the income statement. However, the reserve fund and receivables relating to the Innovation and Industry Fund are recognised at fair value, as determined from their profits or losses, as their income does not meet the SPPI criterion.

5.3. Cash and cash equivalents

"Cash and cash equivalents" includes cash in hand and on-demand deposits, short-term (less than 3 months), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of change in value. Cash equivalents are held for the purpose of meeting short-term cash commitments.

5.4. Debts

Debts issued by the group are initially recorded at cost, which corresponds to the fair value of the amounts borrowed net of transaction costs. These debts are valued on the balance sheet date at amortised cost using the effective interest rate method and are recorded in the balance sheet under "Financial debts to credit institutions" or "Miscellaneous financial debts".

Accrued interest on these debts is recorded in the related debts financial statement with a corresponding entry in the income statement.

5.5. Derecognition of financial assets and liabilities

The group derecognises a financial asset when the contractual rights to receive cash flows from the financial asset have expired, or when those contractual rights and substantially all the risks and rewards of ownership have been transferred. The rights and obligations created or retained on transfer are, where appropriate, recognised separately as assets or liabilities.

On derecognition of a financial asset in its entirety, a gain or loss on disposal is recognised in the income statement in an amount equal to the difference between the book value of the asset and the value of the consideration received, adjusted where appropriate for any unrealised gain or loss previously recognised directly in shareholders' equity.

The group derecognises a financial liability only when that financial liability is extinguished, i.e. when the obligation specified in the contract is extinguished, cancelled or has expired.

5.6. Provisions

A provision is established when it is probable that an outflow of resources embodying economic benefits will be required to settle an obligation arising from a past event and when the amount of the obligation can be reliably estimated. The amount of the obligation is discounted to determine the amount of the provision, if the impact of discounting is material.

5.7. Current and deferred taxes

Current tax

The current corporation tax charge is determined on the basis of the rules and rates in force in France, as the group companies are exclusively located in Francee.

The taxable profit as at 31 December 2024 amounts to €4.5 million.

Deferred tax

Deferred taxes are recognised when there are temporary differences between the book value and the tax value of an asset or liability.

The global calculation method, which consists of capturing all temporary differences regardless of the date on which the tax will become payable or recoverable, is used to calculate deferred taxes.

The tax rate and tax rules used to calculate deferred taxes are those resulting from current tax legislation and which will be applicable when the tax becomes recoverable and payable.

Deferred taxes are offset against each other at the level of each tax entity in the consolidated group. Deferred tax assets are only recognised if it is probable that the entity concerned will be able to recover them within a specified period.

Deferred taxes are recognised as tax income or expense in the income statement, except for deferred taxes on unrealised gains and losses on assets at fair value, as determined by shareholders' equity, for which the related deferred taxes are recognised in shareholders' equity.

Tax uncertainty

Where it is probable that a tax position of the group will not be accepted by the tax authorities, this is reflected in the financial statements when recognising the current tax (current or recoverable) and deferred tax (asset or liability).

5.8. Net cost of financial debt and Other financial income and expenses

The net cost of financial debt is the sum of income from cash and cash equivalents and the cost of gross financial debt.

Income from cash and cash equivalents consists of income relating to the cash items defined in 5.3.

The gross cost of financial debt consists of all costs related to financial liabilities.

Other financial income and expenses consist of income and expenses of a financial nature that are not of an operational kind and do not form part of the net cost of financial debt.

5.9. Share of net profit of companies accounted for by the equity method

Bpifrance, whose shares are consolidated using the equity method, is considered to be of an operational nature as an extension of the group's activity.

As a result, the share of net profit from equity affiliates is presented after operating income, in accordance with ANC recommendation no. 2013-03 of 7 November 2013.

5.10. Use of estimates in the preparation of financial statements

The preparation of financial statements requires the use of assumptions and estimates that involve uncertainties as to their future realisation. These estimates, using information available at the balance sheet date, involve the exercise of management's judgement. Future outcomes are affected by many factors, including changes in interest rates, exchange rates, economic conditions, regulations and legislation.

Note 6 - Notes related to the balance sheet

6.1. Investments in companies accounted for using the equity method

(in €m)	31/12/2024

Other financial expenses (*)	-56.0	-359.5
TOTAL OTHER FINANCIAL INCOME AND EXPENSES	40.9	-265.6

(*) At 31 December 2024, losses and write-downs in the amount of €56 million on receivables from the Innovation and Industry Fund.

Note 8 - Risk exposure, management and measurement

8.1. General organisation of risk management

The group is only exposed to the risks of EPIC Bpifrance as a parent entity, Bpifrance being consolidated using the equity method.

As at 31 December 2024, the risks inherent in the business activities of EPIC Bpifrance are limited to:

- the risk of loss due to the inability of a counterparty to meet its financial obligations,
- the risk of loss due to changes in market prices and rates.

8.2. Quantitative analyses of credit and counterparty risks on financial activities

Maximum credit risk exposure

(in €m)	31/12/2024	31/12/2023
Cash and cash equivalents	7,594.6	7,640.5
Other financial assets	215.2	351.1
Guarantee commitments given and commitments by signature ^(*)	58,934.0	50,063.4
TOTAL	66,743.8	58,055.0

(*) The guarantee commitments given, i.e. €58,934.0M, are representative of the guarantee granted by EPIC Bpifrance to investors in Bpifrance's issuance

Quantitative information on credit risk

"Cash and cash equivalents", which amounted to €7,594.6m as at 31 December 2024, is made up of current accounts opened with the French State (Agence France Trésor) in the amount of €7,424.3m.

"Other financial assets", which amounted to €215.2m as at 31 December 2024, relates to the Bpifrance Group in the amount of €214.8m (excluding related receivables).

8.3. Financial risks

Financial risks are defined as the risks of loss of economic value caused by adverse changes in market parameters, affecting all on- and off-balance sheet positions.

EPIC Bpifrance is exposed to structural interest rate risk.

EPIC Bpifrance's balance sheet items exposed to interest rate risk are limited to cash and lending/borrowing operations. For the latter, EPIC Bpifrance receives financing and grants mirror loans to Bpifrance. Thus, these operations are perfectly matched in terms of interest rate and liquidity; the sensitivity to structural interest rate risk is zero. Furthermore, insofar as these loans are ultimately included in Bpifrance's balance sheet as financial debt, the structural risks attached to these loans are integrated into the overall system for managing and monitoring Bpifrance's ALM risks.

EPIC Bpifrance uses two indicators to monitor structural interest rate risk:

- the measurement of income risk, via the net interest margin, which aims to assess the impact of different interest rate scenarios on the company's net interest margin, by applying similar rate shocks to all short rates; and
- the measurement of value risk, via the net present value of the portfolio of transactions (capital and interest flows) at fixed rates, excluding equity, which aims to monitor the evolution of the net present value in the event of a change in rates (EVE – Economic Value of Equity).

Due to the structure of EPIC Bpifrance's balance sheet, as at 31 December 2024, the sensitivity of these two indicators to a 200bps rise/fall in interest rates is almost nil.

Maturity of financial assets and liabilities

The tables below show the undiscounted contractual flows (capital and interest).

Annual flows (in €m)	Book value	Total incoming (outgoing) flows	On demand	31/12/2024			
				Less than 3 months	Between 3 and 12 months	Between 1 year and 5 years	After 5 years

Repayment of term loans from credit institutions	0.0	0.0	0.0	0.0	0.0	0.0	0.0

Note 9 - Disclosure of interests in other entities

9.1. Interests held in subsidiaries

EPIC Bpifrance does not hold any minority interests.

The group has no significant legal, regulatory, or contractual restrictions on its ability to access the group's assets or to settle the group's liabilities.

9.2. Interests held in partnerships and equity-consolidated companies

EPIC Bpifrance, through its role as the holding company for the French State's investment in Bpifrance, holds interests in a joint venture considered individually significant. These interests are presented after adjustments related to the application of the equity method.

Table of interests in entities accounted for using the equity method – Bpifrance Group consolidated financial statements

Note 1 - Significant events and post balance sheet events

1.1. Significant events in the financial year

No material event has taken place during the financial year.

1.2. Post-balance sheet events

No material event has taken place subsequent to closure of the accounts.

Note 2 - Presentation and assessment rules

The annual financial statements of EPIC Bpifrance are prepared and presented in accordance with ANC regulation no. 2014-03 relating to French Generally Accepted Accounting Principles.

• Balance sheet

Related receivables and debts are grouped with the asset or liability items to which they relate.

The heading shareholders' equity includes the items subscribed capital, retained earnings and the result of the financial year.

In the "Financial Assets" item, equity investments include securities whose long-term ownership is considered useful for the company's business, particularly because it enables it to exercise influence over the issuing company or to control

it. Long-term portfolio securities (TIAP) include securities intended for portfolio activity, which consists of investing all or part of the assets in a portfolio of securities in order to obtain a satisfactory return in the medium or long term and which is carried out without intervening in the management of the companies whose securities are held. These securities are valued at the end of the financial year at the lower of their cost or their value-in-use. The latter is determined in particular on the basis of net asset value, business prospects

• Income statement

Income and expenses are classified by category.

Interest and guarantee fees are recorded in the income statement according to the accrual method.

Dividends are recorded as soon as the distribution decision is taken by the authorised body of the distributing company.

TOTAL	11,298,138	0	-193,972	206,327	11,310,493

Pursuant to Article 79 of the Amending Finance Act No. 2001-1276 of 28 December 2001 (amended by Article 88 of the Amending Finance Act for 2003 No. 2003-1312 of 30 December 2003), a dividend may be received by the State. The dividend is deducted in priority from the distributable profit for the financial year, within the meaning of Article L.232-11 of the Commercial Code. It may be deducted from available reserves. Capital contributions received by public institutions do not give rise to fees. After examining the financial position of the public institution and establishing the existence of distributable sums, on the basis of the report of the Board of Directors, the Minister responsible for the economy and the Minister responsible for the budget shall determine by order the amount of the dividend paid to the State.

Pursuant to the Decree of 8 July 2024, EPIC Bpifrance distributed a dividend of €194 million to the French Government Shareholding Agency (Agence des Participations de l'État - APE).

5.1. REPORT ON THE CONSOLIDATED FINANCIAL STATEMENTS

EPIC Bpifrance

27-31 avenue du Général Leclerc - 94 710 Maisons-Alfort

Report of the statutory auditors on the consolidated financial statements

Financial year ended 31 December 2024

Ladies and gentlemen,

Opinion

In compliance with the engagement entrusted to us by your Board of Directors, we have audited the consolidated financial statements of EPIC Bpifrance for the financial year ended 31 December 2024, as attached to this report.

We certify that the consolidated financial statements, in accordance with the IFRS standards adopted by the European Union, give a true and fair view as at the end of the financial year of the assets and liabilities and of the financial position of the group, consisting of the legal entities included in the consolidation, and of the financial results of its operations for the year then ended.

Basis for the opinion

Audit guidelines

We conducted our audit in accordance with the professional standards applicable in France. We believe that the audit evidence we have obtained provides an adequate and appropriate basis for our opinion.

Our responsibilities pursuant to these standards are set out in the section in this report entitled "Responsibilities of the statutory auditors relating to the audit of the consolidated financial statements".

Independence

We conducted our audit, over the period from 1 January 2024 to the date on which our report was issued, in compliance with the independence rules provided for in the French Commercial Code and the Statutory Auditors' Code of Ethics.

Justification for our assessments

In accordance with the provisions of Articles L.821-53 and R.821-180 of the French Commercial Code relating to the justification of our assessments, we draw your attention to the following findings that, in our professional judgement, were the most significant for the audit of the consolidated financial statements for the year.

The assessments thus made are part of our audit of the consolidated financial statements taken as a whole, and have contributed to the opinion we expressed above. We do not provide an opinion on individual items in these consolidated financial statements.

As indicated in Note 4 "Scope of consolidation", your company accounts for Bpifrance shares using the equity method. As part of our assessment of the accounting rules and principles observed by your company, as presented in Notes 3.3 "Investments accounted for using the equity method" and 3.4 "Consolidation rules", we verified the appropriateness of the above accounting policies and the information provided in Notes 6.2 "Investments accounted for using the equity method" and 7.2 "Share of the net profit or loss of investments accounted for using the equity method". We also verified that the above accounting rules and principles had been correctly applied.

Specific verification

We also performed, in accordance with the professional standards applicable in France, the specific verification required by law and regulation of the information provided with regard to your business in the management report of the Board of Directors.

We have no matters to report as to its accuracy or its consistency with the consolidated financial statements.

Responsibilities of management and those charged with governance in respect of the consolidated financial statements

Management is responsible for preparing consolidated financial statements that give a true and fair view in accordance with IFRS as adopted in the European Union, and for implementing the internal control procedures they deem necessary for the preparation of consolidated financial statements that are free of material misstatement, whether due to fraud or error.

When preparing the consolidated financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing in its financial statements, as applicable, required matters relating to going concern, and applying the going concern basis of accounting, unless they expect to liquidate the company or cease trading.

The consolidated financial statements were approved by the Board of Directors.

Responsibilities of the statutory auditors relating to the audit of the consolidated financial statements

It is our responsibility to prepare a report on the consolidated financial statements. Our objective is to obtain reasonable assurance that the consolidated financial statements taken as a whole are free of material misstatement. Reasonable assurance is a high level of comfort, but it is not, however, a guarantee that an audit conducted in accordance with professional standards will always detect every material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or taken together, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As specified in Article L.821-55 of the French Commercial Code, our statutory audit does not include assurance as to the viability or quality of management of your company.

As part of an audit conducted in accordance with professional standards applicable in France, the statutory auditor exercises professional judgement throughout the audit. Furthermore:

- he/she identifies and assesses the risks of material misstatement in the consolidated financial statements, whether due to fraud or error, designs and performs audit procedures in response to these risks, and obtains audit evidence considered to be adequate and appropriate to provide a basis for his/her opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the circumvention of internal controls;
- he/she obtains an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control;
- he/she evaluates the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by management and the related disclosures in the consolidated financial statements;
- he/she assesses the appropriateness of management's use of the going concern principle of accounting and, based on the audit evidence gathered, whether a material uncertainty exists relating to events or circumstances that may cast doubt on the company's ability to continue as a going concern. This assessment is based on the audit evidence obtained up to the date of the audit report. However, subsequent events or circumstances may call into question the company's ability to continue as a going concern. If the statutory auditor concludes that a material uncertainty exists, he/she draws attention in the audit report to the related disclosures in the consolidated financial statements or, if such disclosures are not provided or are irrelevant, issues a qualified opinion or declines to sign-off the accounts;
- he/she evaluates the overall presentation of the consolidated financial statements and assesses whether these statements give a true and fair view of the underlying business and events;
- with regard to the financial information in respect of the legal entities included within the consolidation scope, he/she obtains audit evidence considered sufficient and appropriate to express an opinion on the consolidated financial statements. He/she is responsible for the management, supervision and carrying out of the audit of the consolidated financial statements and for the opinion expressed on those financial statements.

5.2. REPORT ON THE PARENT ENTITY FINANCIAL STATEMENTS

EPIC Bpifrance

27-31 Avenue du Général Leclerc - 94710 Maisons-Alfort

Report of the statutory auditors on the annual financial statements

Financial year ended 31 December 2024

Ladies and gentlemen,

Opinion

In compliance with the engagement entrusted to us by your Board of Directors, we have audited the annual financial statements of EPIC Bpifrance for the financial year ended 31 December 2024, as attached to this report.

We certify that the annual financial statements, with respect to French accounting rules and principles, give a true and fair view of the assets and liabilities and of the financial position of the company as at the end of the financial year, and of the financial results of its operations for the year then ended.

Basis for the opinion

Audit guidelines

We conducted our audit in accordance with the professional standards applicable in France. We believe that the audit evidence we have obtained provides an adequate and appropriate basis for our opinion.

Our responsibilities pursuant to these standards are described in the section in this report entitled "Responsibilities of the statutory auditors relating to the audit of the annual financial statements".

Independence

We conducted our audit, over the period from 1 January 2024 to the date on which our report was issued, in compliance with the independence rules provided for in the French Commercial Code and the Statutory Auditors' Code of Ethics.

Justification for our assessments

Pursuant to the requirements of Articles L.821-53 and R.821-180 of the French Commercial Code relating to the justification of our assessments, we hereby inform you of the most important findings, in our professional judgement, relating to the appropriateness of the accounting principles applied and the overall presentation of the financial statements, in particular with regard to the long-term financial assets detailed in Note 2 to the annual financial statements.

The assessments thus made are part of our audit of the annual financial statements taken as a whole, and have contributed to the opinion we expressed above. We do not provide an opinion on individual items in the annual financial statements.

Specific verifications

In accordance with the professional standards applicable in France, we have also performed the specific verifications required by French law and regulations.

We have no matters to report as to the accuracy and the consistency with the annual financial statements of the information given in the Board of Directors' management report and in the other documents with respect to the company's financial position and the annual financial statements provided to members of the Board of Directors.

Responsibilities of management and those charged with governance in respect of the annual financial statements

Management is responsible for preparing annual financial statements that give a true and fair view in accordance with French accounting principles, and for implementing the internal control procedures they deem necessary for the preparation of annual financial statements that are free of material misstatement, whether due to fraud or error.

When preparing the annual financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing in these financial statements, as applicable, required matters relating to going concern, and applying the going concern basis of accounting, unless they expect to liquidate the company or cease trading.

The annual financial statements were approved by the Board of Directors.

Responsibilities of the statutory auditors relating to the audit of the annual financial statements

It is our responsibility to prepare a report on the annual financial statements. Our objective is to obtain reasonable assurance that the annual financial statements taken as a whole are free of material misstatement. Reasonable assurance is a high level of comfort, but it is not, however, a guarantee that an audit conducted in accordance with professional standards will always detect every material misstatement. Misstatements can arise from fraud or error and are considered material if, individually or taken together, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As specified in Article L.821-55 of the French Commercial Code, our statutory audit does not include assurance as to the viability or quality of management of your company.

As part of an audit conducted in accordance with the professional standards applicable in France, the statutory auditor exercises professional judgement throughout the audit. Furthermore:

- he/she identifies and assesses the risks of material misstatement in the annual financial statements, whether due to fraud or error, designs and performs audit procedures in response to these risks, and obtains audit evidence considered to be adequate and appropriate to provide a basis for his/her opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the circumvention of internal controls;
- he/she obtains an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control;
- he/she evaluates the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by management and the related disclosures in the annual financial statements;
- he/she assesses the appropriateness of management's use of the going concern accounting principle and, based on the audit evidence gathered, whether a material uncertainty exists relating to events or circumstances that may cast doubt on the company's ability to continue as a going concern. This assessment is based on the audit evidence obtained up to the date of the audit report. However, subsequent events or circumstances may call into question the company's ability to continue as a going concern. If the statutory auditor concludes that a material uncertainty exists, he/she draws attention in the audit report to the related disclosures in the annual financial statements or, if such disclosures are not provided or are irrelevant, issues a qualified opinion or declines to sign-off the accounts;
- he/she evaluates the overall presentation of the annual financial statements and assesses whether these statements give a true and fair view of the underlying business and events.
