

2024 FINANCIAL RESULTS

ROBUST PERFORMANCE: NET INCOME OF 986 MILLION EUROS

PERFORMANCE

In 2024, Bpifrance injected €60bn¹ into the French economy. This high level of activity was accompanied by robust financial performance.

In 2024, net consolidated income remained at a high level of €896m.

The Net Banking Income, for a total of €2.1bn, is comprised of:

- A net interest margin of €720m, up 9% during a year characterised by long-term interest rate instability;
- Dividends received from direct equity interests, which remain at an exceptional level of €613m (+3%);
- A contribution from the Fund of Funds business that, at €140m, remains moderate due to new caution surrounding risk capital valuations and despite the positive signal of a very strong upturn in distributions.

The increase in expenditure reflects the growth of our activities and is in compliance with our management ratios (operating ratio* for the banking business line and expense ratio* for the Investment business).

The rise in the cost of risk reflects a **normalisation of the cost of proven risk** following the exceptionally low post-Covid years and a lower write-back of provisions for expected cost of risk.

The contribution to income of holdings in equity-consolidated companies* is down by 42% at €183m as a result of the fall in STMicroelectronics' net income in 2024.

In addition to net income, Bpifrance's overall performance is evaluated over the long-term through the change in the value of its portfolios. **The change in value of Bpifrance since its creation in 2013 is €13.9bn**, i.e. average annual performance of 5.2%.

FINANCIAL ROBUSTNESS

The robustness of the financial structure is confirmed at the top level by ratios that far exceed regulatory requirements:

- Bpifrance's solvency remains robust: **the CET1* ratio stands at 27.36%** compared to a regulatory requirement for overall solvency of 13.27% (excluding Pillar 2 Guidance);
- Bpifrance boasts an exceptional liquidity position with a **liquidity coverage ratio (LCR*) of 280%** (prudential requirement of 100%), as well as a liquidity reserve of €19.7bn.

* See the methodological notes at the end of the press release

"2024 was a positive year for Bpifrance, in line with our commitments and our strategic priorities. First and foremost, this success is the success of our staff and of our clients; it is also the fruit of the results-driven culture that frames the work of all our business lines. On this sound footing we can face 2025 with confidence and with full capacity to pursue our investment in tomorrow, alongside our clients and at the service of the French economy."

Nicolas Dufourcq, CEO, Bpifrance

On 14 March 2025, at a meeting chaired by Antoine Saintoyant, the Bpifrance S.A. Board of Directors scrutinised and approved the 2024 financial statements.

Bpifrance S.A. consolidated results

Income statement – €m Bpifrance Consolidated	2023 Actual	2024 Actual	Change % A24/A23

Bpifrance Participations: expense ratio	0.7%	0.7%	
ROE	3.7%	3.1%	

Methodological notes

Equity-consolidated companies (ECC): equity interests over which the Group exercises joint control or significant influence are accounted for using the equity method. This consists of replacing the value of the securities by the share that the Group holds in the equity and income of the companies in question. Thus, the income statement reflects the Group's share in the income of the companies accounted for using the equity method and when an impairment is noted, this is charged to the equity-consolidated holding on the balance sheet, which allows for the subsequent reversal of the impairment in the event of an improvement to the going concern or market value.

ROE:

- Numerator: net income for year N
- Denominator: shareholder's equity (including annual income) at end of year N

Operating ratio: ratio comparing operating expenditure to net banking income

Expense ratio: ratio comparing operating expenditure to Assets under Management (Bpifrance Participations)

LCR ratio: Liquidity Coverage Ratio (1 month), comparing high-quality liquid assets to net total cash outflow

CET1Ratio: Core Equity Tier 1 ratio, comparing core equity capital to risk-weighted assets

Furthermore, due to rounding rules, the sum of the values appearing in the tables and analyses may differ slightly from the total shown.

² Change not taking IFRS restatements made in 2024 into account. When taking these restatements, such as the SaaS solutions, into account, the change is 11%.

Notice

The aim of this press release is to illustrate the activities and results of the Bpifrance Group for 2024. It provides an overview of the activities of the main Bpifrance business lines and presents financial information for the financial year ending 31 December 2024. The data presented in this press release has not been audited. The figures it contains are taken from internal approved sources and from the accounts (corporate and/or consolidated) of Bpifrance Participations, Bpifrance Investissement and Bpifrance for the 2024 financial year. These accounts have been approved by the Boards of Directors of these companies on 13 and 14 March 2024, and have been certified by the external auditors. They will be submitted to the shareholders of these companies for approval on 22 May 2024.

This press release may contain objectives and commentary on Bpifrance's objectives and strategy. By their nature, these objectives are based on assumptions, project-specific considerations, objectives and expectations related to events, and future and uncertain operations, products and services, as well as on suppositions in terms of performance and future synergies. No guarantee can be given as regards the fulfilment of these objectives, which are subject to inherent risks, uncertainties and assumptions related to Bpifrance, its subsidiaries and its investments, to the development of the activities of Bpifrance and its subsidiaries, sector trends, future investments and acquisitions, the evolution of the economic climate, and of the main markets of Bpifrance, to the competition and to regulations. These events are uncertain, their outcome may differ from that anticipated today, which is likely to have a significant impact on the expected results. The actual results may differ substantially from those mentioned in the objectives. The information contained in this press release, insofar as it relates to parties other than Bpifrance or it is taken from external sources, has not been independently verified and no statement or commitment is given in regard thereto. Furthermore, no certainty can be given as regards the correctness, sincerity, accuracy and exhaustive nature of the information or opinions contained in this press release. Neither Bpifrance nor its representatives may be held liable for any negligence or any harm that may result from the use of this press release or its contents, or anything relating thereto, or any of any document or information to which it may refer.
